

Dear FCC:

Please, please, do not allow any more monopolization of our media. The news in this country is already too homogenized, and to allow more cross-ownership does not make sense. I heard that Mr. Powell invoked the First Amendment in his reasoning. I would also invoke the First Amendment, for the opposition argument--how can many, many of our American voices be heard, if the media are controlled by the few? These few choose what they want to publish or broadcast, and if you do not think like they do, tough luck. I am for more diversification of our "free" press, not less.

Sincerely,  
G.L. LeBlanc
